

## INSTRUCTIONS & PRODUCT CONTENTS

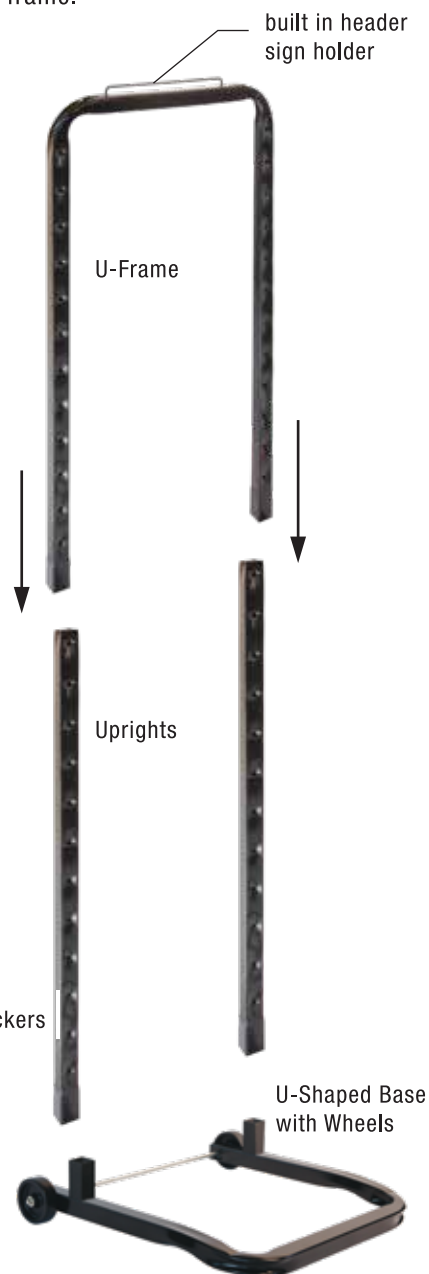

General Merchandiser Rack, 5-Tier  
Flat Shelf Metal Mobile Display

### CONTENTS

- 1 - U-Frame
- 2 - Uprights
- 1 - U-Shaped Base with Wheels
- 5 - Wire Shelves with Price Channel and Graphic Arm
- 1 - Set of (10) Graphic Mounting Pins

**1** Insert the 2 uprights onto the base as shown. Insert U-Frame to Uprights.

Note: Be sure to have the graphic labels facing out to each side of the frame.

**Tip:** make sure upright holes are facing forward and stickers are facing out to each side.

**2** First: Insert the Bottom Shelf into the lowest desired holes and work your way up to the top of the rack with the remaining Shelves.

**Tip:** measure the height of your product and count prepunched holes to desired height and repeat for each shelf position.

**3** Attach the “Top & Bottom” Side Graphic Panels.

Note: The top panel overlaps the bottom panel on each side.

**Tip:** slide top graphic panel into shelf arm and secure top 2 pins upper left. Position bottom graphic panel under top panel secure with 3rd and remaining pins.
